Title: Saw Operator – Fabrication Operations

Reports To: Production Manager

Primary Purpose: Operates equipment, primarily tables saws, in a safe and effective manner to produce parts used in signage, identification, and personalization products. Works collaboratively with other members of the fabrication team to ensure high levels of quality and on-time delivery.

Expected Attributes of Employees:

- Aware of safe operating practices and works in a safe manner. Proactively raises opportunities to improve safety throughout the operation.
- Positive attitude with a high level of accountability, personal drive, ambition, integrity.
- Drive to meet and exceed quality and service goals.
- Passion to learn new skills and contribute beyond the primary role and responsibility.
- Competent in communicating effectively; Professionally communicates directly, publicly, and openly throughout the organization.
- High level of problem solving, troubleshooting, and task/project management skills with the ability to work both independently and within a team.
- Passion for continuous improvement in all aspects of the company's performance.
- Driven for results and measuring progress.
- Strong attention to details and follow-up.

Qualifications:

- High school degree or equivalent required. Technical degree a plus.
- Previous experience in a "hands on" operation with demonstrated mechanical/technical aptitude

Primary Duties & Responsibilities:

- Experience with the operations of table saws and other power equipment.
- Ability to add, subtract, multiply, and divide in all units of measure, using whole numbers, common fractions, and decimals.
- Accurately measure using taper measures and calipers.
- Ability to work independently on assigned projects, meet expectations/deadlines accordingly, and communicate effectively.
- Strong attention to detail regarding our quality standards.
- Ability to work proactively with all department to solve scheduling issues and confront obstacles – with a customer-driven focus.
- Ability to learn new processes quickly and troubleshoot difficulties while upholding quality standards.
- Ability to effectively communicate information in one-on-one and small group situations.
- Ability to apply common sense understanding to carry out instructions furnished in written, oral, or diagram form.
